ENTHUSIASTIC

## BIO

## IT Student | Web Development Enthusiast

I am currently at the beginning of my journey in the IT field, with a growing interest in programming and cybersecurity. While I am still learning the fundamentals, I am fully committed to developing my skills in web development and creative design through consistent practice and hands-on experience.

I also have internship experience as a Web Developer at Diskominfoantik, where I worked for four months and gained practical exposure to real-world projects and professional work environments.

## Background

MA Nahdhotul Ulama,  
2020 – 2023 High School Graduate  
Vocational High School in IPA

President University  
Undergraduate Student  
Major in Information Technology

## Skills

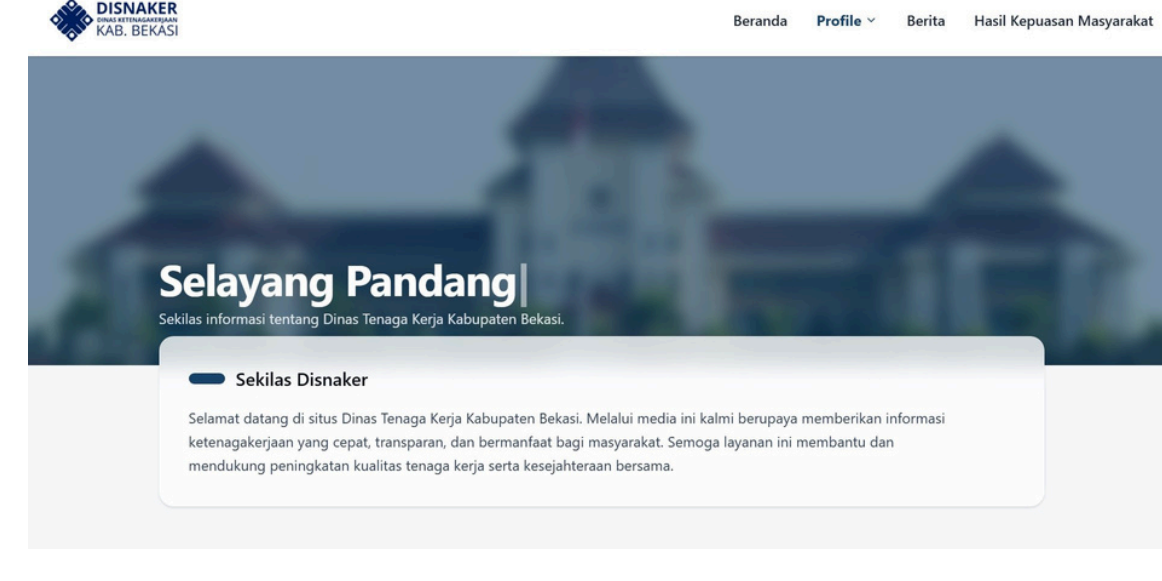

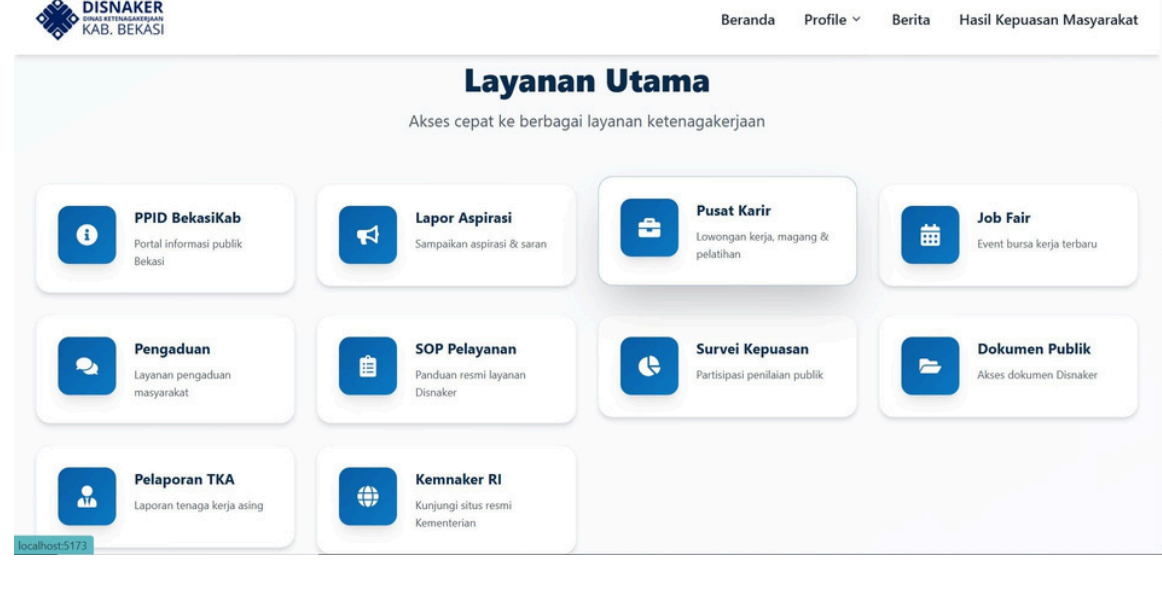

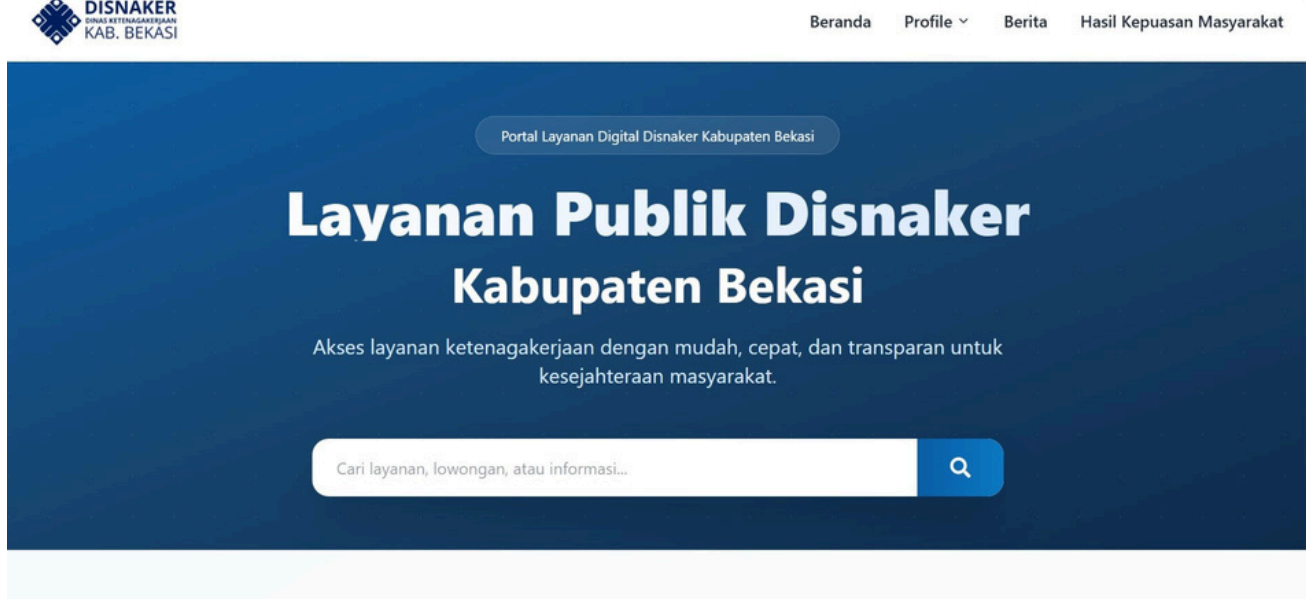

- Web Development (Responsive & Interactive Websites)
- Cybersecurity Fundamentals
- UI/UX Design Principles
- HTML, CSS, JavaScript
- SQL (Basic Database Management)
- Front-end
- Code Editing

## Work Experience

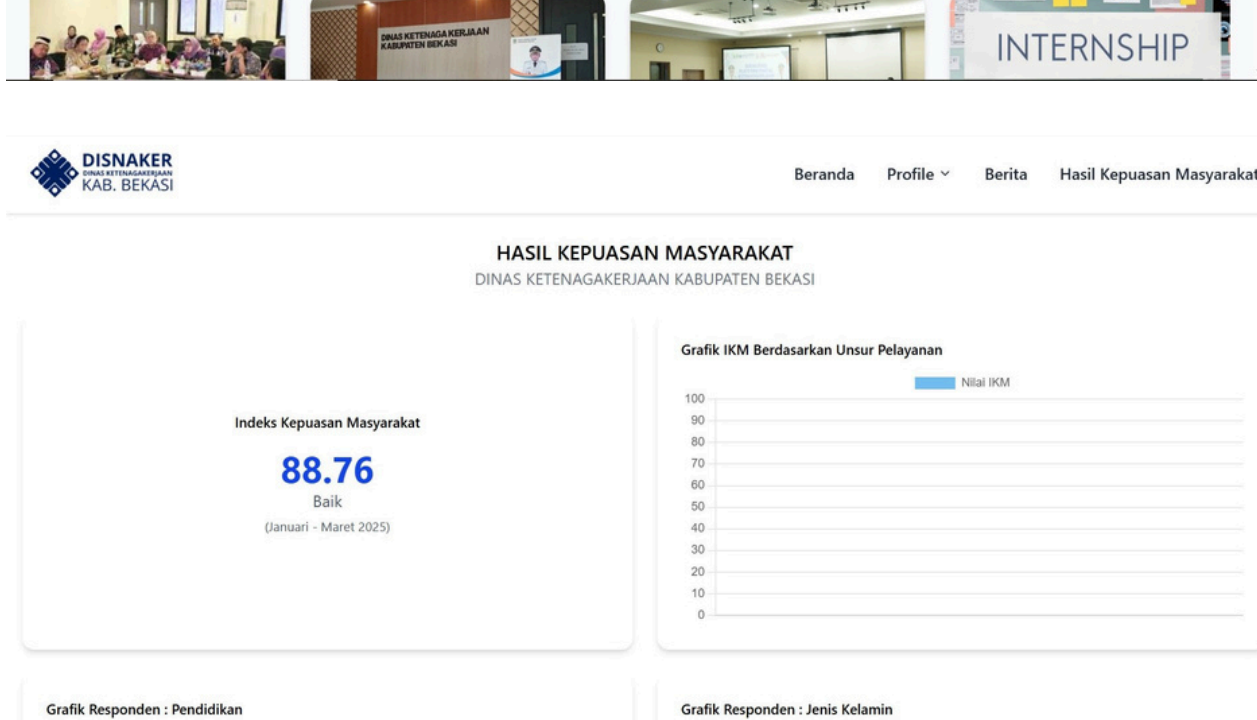

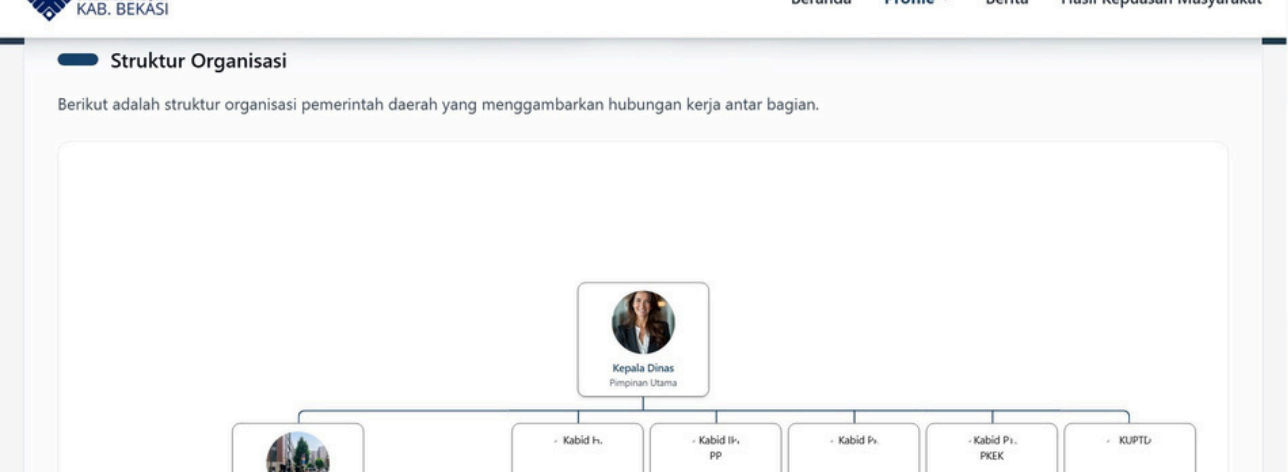

Developer Intern  
Dinas Komunikasi, Informatika,  
Persandian dan Statistik  
(Diskominfoantik) Kabupaten Bekasi

- Developed and maintained web-based applications.
- Assisted in front-end development and system improvements.
- Collaborated with the team on real-world government projects.

## MY PROJECT

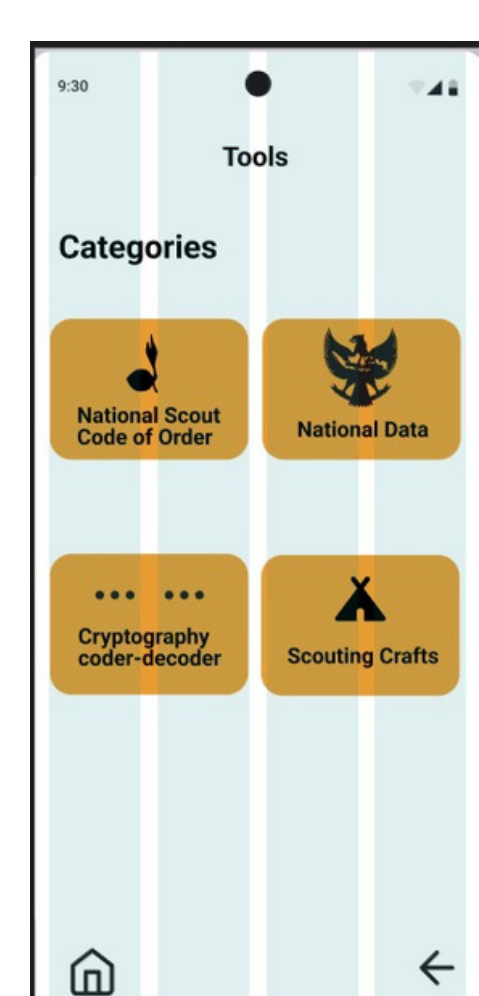

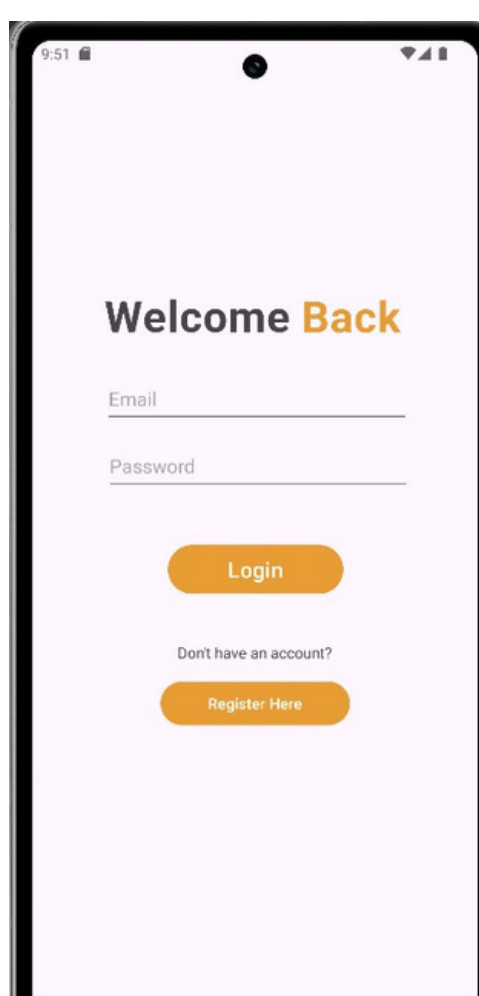

## Developing Dinas Ketenagakerjaan Website

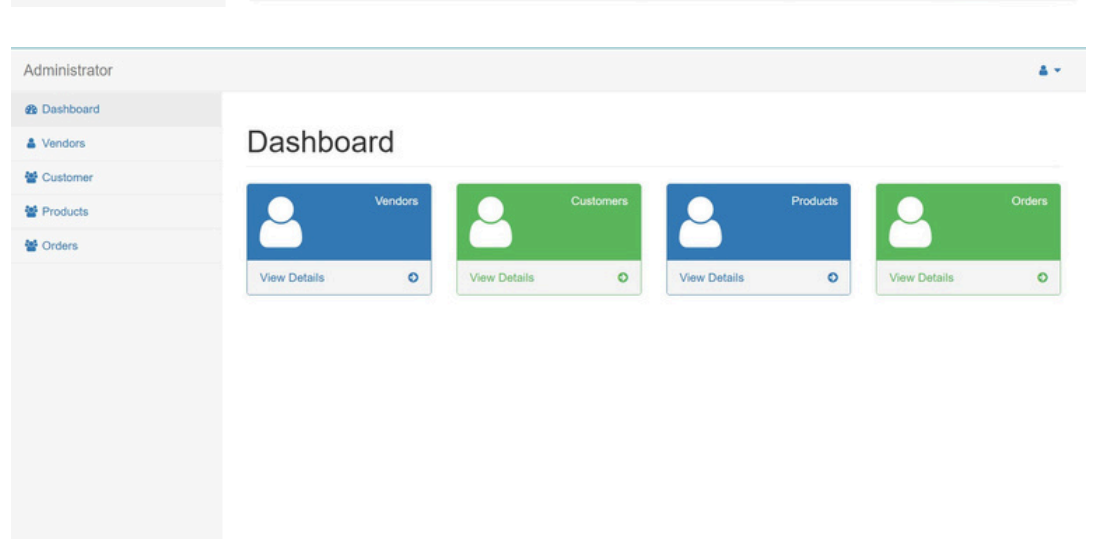

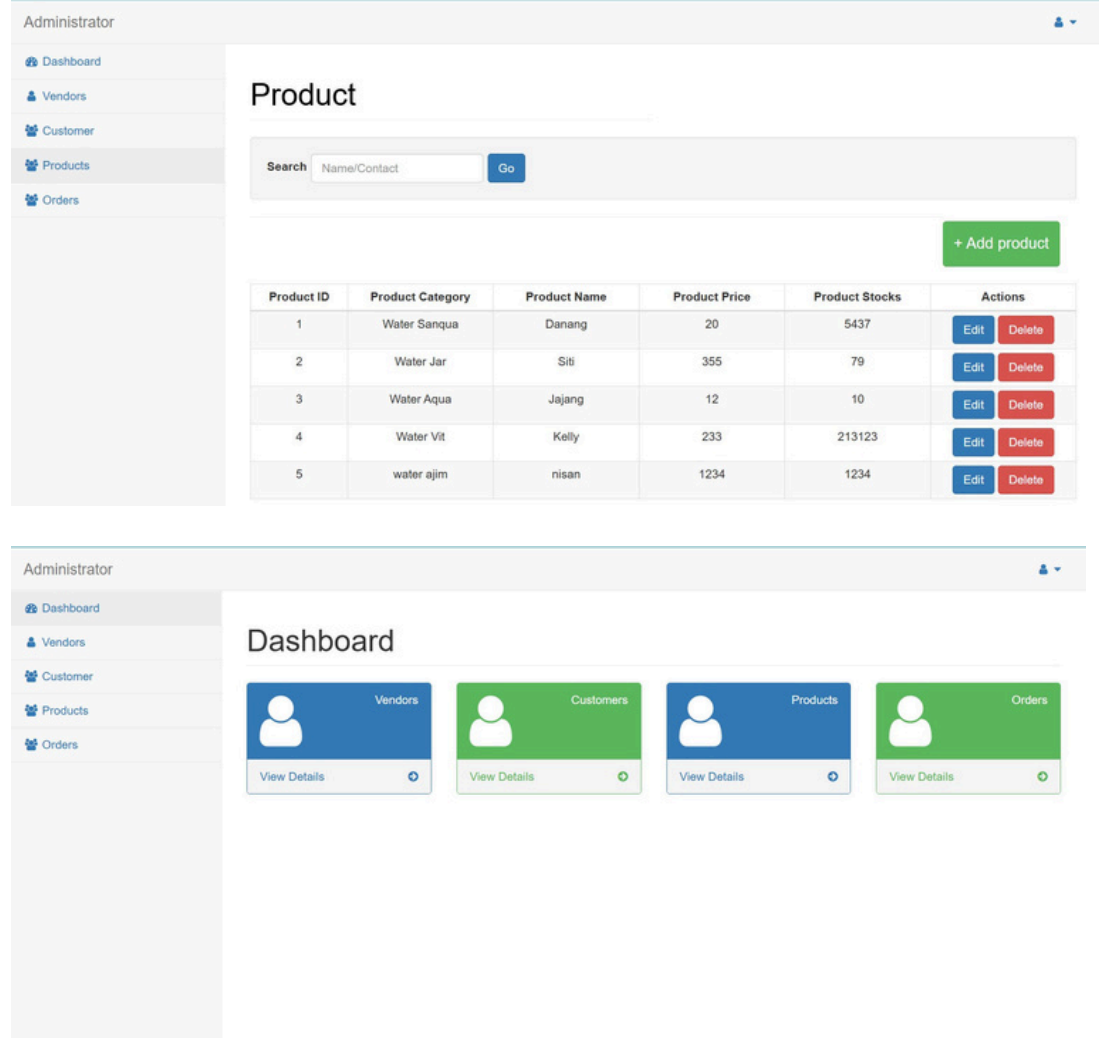

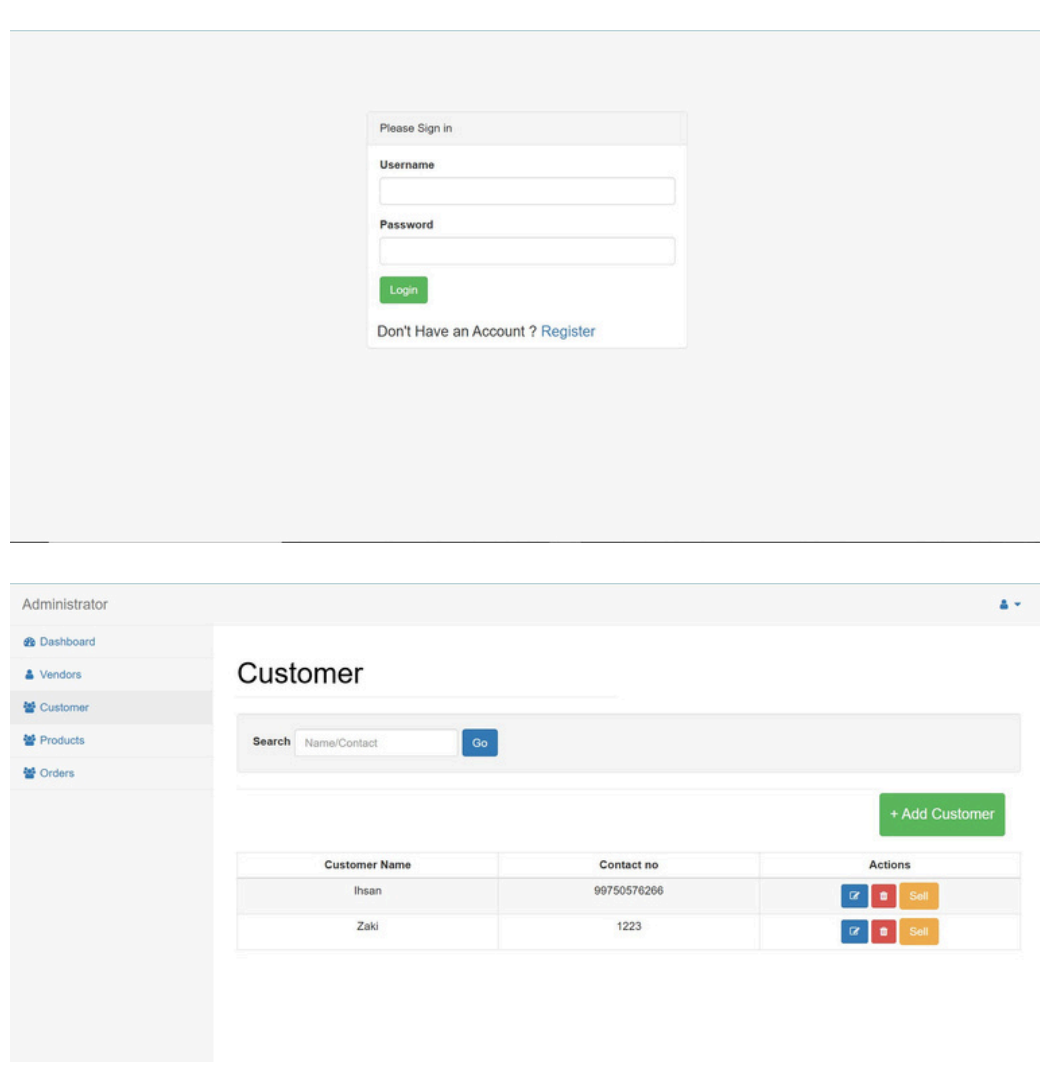

Developing the Disnaker website to be more interactive and user friendly using the programming languages Vite, ReactJS, TailwindCSS and NodeJS, MongoDB as the backend

## Pramusaku Project - Digital Scout Handbook

**PramusakuProject** is an Android application designed to help Scouts easily access various materials and information about Scouting in a digital format. This app is suitable for young members as well as Scout leaders.

## Water Management System

A web-based water management system designed to manage gallon water sales transactions and organize customer, product, vendor, and order data. This project is built using PHP and MySQL, providing a simple user interface for data administration.

I develop clean and functional web applications, turning ideas into practical digital solutions and building user-focused web experiences using modern technologies.
